Central Hudson Gas & Electric Corp.—Pipe Line Soon Completed—

Completed—
The first natural gas pipe line to cross the Hudson River began on July 5 its slow crawl across the river bottom at Poughkeepsie, N. Y. The submarine line is the last lap of the corporation's new \$2,000,000 40-mile, natural gas pipe line which in recent weeks has been burrowing north from Tuxedo to Highland, N. Y. The Hudson crossing will join Highland on the west bank to Central Hudson's main gas works in Poughkeepsie on the east side. At Tuxedo, the new line taps Texas natural gas from the Columbia Gas System.

A key element in the largest plant expansion program in the company's history, the pipe line is expected to bring natural gas to the mid-Hudson Valley by the middle of the summer. New Receiver Introduced-

A 30 inch TV receiver offering more than 536 square inches of sicture area—the largest direct-view receiver ever shown by a telesision manufacturer—was introduced to the press on July 6 by this corporation.

Th giant screen is more than 21/2 times that of the large 19-inch tube, clready in general use, and more than four times the area of the 15-inch receivers on the market.

Designed for use in public places, such as schools, clubs, restaurants, hotels and hospitals, the 'Club 30" can also be used in the home. The Du Mont 30-inch tube has a 90 degree deflection angle, which makes it shorter in length than in diameter. This makes it possible to house the tube in cabinets of conventional proportions.

Ten new sets incorporating the 17-inch glass rectangular tube—another Du Mont "First" in big-screen TV development and three additions to Du Mont's 19-inch console line, were introduced.

Additionally, Du Mont showed the 19-inch "Westminister," called by engineers the finest entertainment instrument ever developed by the TV industry. This new de luxe receiver includes television on all channels, full range AM and FM radio, three-speed record player and an automatic tape recorder. An innovation in this receiver is the inclusion of an automatic clock which turns the set on and off automatically.—V. 172, p. 10.

Eastern Gas & Fuel Associates—Court Approves Plan

The plan of recapitalization on June 22 was approved by District Court at Boston, Mass. Approval will lead, it is expected, to Eastern's complete exemption from provisions of the Public Utility Holding Company Act of 1935. The plan provides for allocation of 87% of a proposed new issue of common stock to holders of present 6% preferred and 13% to holders of present common stock. The 412% cumulative prior preference will be changed to cumulative preferred stock with certain adjustments in rights. Judge George C. Sweeney in his order said the plan is fair, equitable and appropriate to effectuate the provisions of the Public Utility Holding Company Act. He added that findings of the SEC approving the plan, are supported by substantial evidence.

The New York Curb Exchange announces that the new \$10 par common stock was admitted to when issued dealings at the market opening on June 30. # Southern Co.-Proposed Acquisition-

In a joint announcement by E. A. Yates, Chairman of this company, and G. C. Walker, President of the Electric Bond & Share Co., on June 22, a plan was proposed for the acquisition by Southern Co. of Birmingham Electric Co. Upon acquisition, the latter's properties would be integrated with the Alabama Power Co., a wholly-owned subsidiary of Southern Co.

The plan, approved by the SEC, provides that the common stock-holders of Birmingham Electric Co. would receive in exchange for each share held 1½ shares of Southern Co. common stock. Holders of Birmingham Electric Co. 4.20% preferred stock would be offered the right to exchange on a share-for-share basis for 4.20% preferred stock of Alabama Power Co.

The plan also provides that the transportation properties of the Birmingham Electric Co. will be sold to some non-affiliated interest in conformity with policies of the Commission under the Holding

# State Farm Fire Insurance Co., Bloomington, IIL—Merger Effected—Name Changed—

Effective July 1, 1950, capital of this company has been increased to \$1,000,000 following its absorption of the State Farm Casualty Co. by merger. Simultaneously, the name of the surviving company has been changed to State Farm Fire and Casualty Company.

The retiring State Farm Casualty Co., which was organized in 1344 but had not transacted business, had capital of \$300,000 and surplus of \$352.589 as of the date of merger. The addition of these funds to the resources of the State Farm Fire & Casualty Co. increases its assets to over \$6.000,000 and its surplus to policyholders to more than \$2.800,000, keeping pace with its growing volume of business. In 1949, the company wrote net premiums of approximately \$3.100,000, principally in fire, extended coverage, motor vehicle and hail insurance. The company has no present intention to write any lines of insurance other than those now being transacted.

The new capital stock is divided into 100,000 shares of \$10 par value. All of the stock, except directors' qualifying shares, is owned by the State Farm Mutual Automobile Insurance Co., which had also whosts owned the shares of the former State Farm Fire and State Farm Casualty companies.

#### Tracerlab, Inc., Boston, Mass.—New Atomic Defense Orders Received-

The corporation closed the first half on June 30 with a \$2,156,272 backlog of commercial and service contract orders on the books according to William E. Barbour, Jr., President. A part of the backlog represents instrument orders placed in the last week of June for equipment for protection of civilian and military personnel against atomic attack.

The corporation is principally engaged in the manufacture of radioactive chemicals and the production of instruments to measure radiation for research medicine and industry. Its "Beta Gauge" currently in the early production stage can continuously measure and control the thickness of moving sheets of paper or plastic films, rubber, and steel during manufacture.—V. 169, p. 1820.

# Tucker Corp.—Creditors Seek Sale—

The creditors of this company on July 3 declared any chances of reorganizing the company "appear remote.

In an answer filed in the U. S. District Court in Chicago they asked the company's assets be sold. The answer was to a government petition of June 27 requesting possession of the Tucker plant on Jan. 1, 1951, for use by four Federal agencies.

The creditors stated that the Court has allowed corporation trustees to maintain the big Tucker plant "at a terrific expense." Since bank-

ruptcy proceedings were started, they said, numerous attempts at reorganization have been made. "The situation, instead of getting better is getting worse," they contended.

Their petition said the cost of removing assembly lines, conveyor systems, baking ovens and other equipment from the plant will be high and further lessen the value of the assets. Their sale would relieve trustees of the expense of maintaining them.—V. 171, p. 1789.

# Excludes Federal income taxes. ‡Deficit.—V. 171, p. 2405. United Fuel Gas Co.—To Increase Facilities—

This company is seeking Federal Power Commission authorization for the construction of approximately 5.5 miles of pipeline and three compressor stations with a total horsepower of 6.460 to be used for delivering natural gas to storage pools in West Virginia.

Estimated total capital cost of the proposed facilities is \$2,464,800, which would be financed by the issuance and sale of registered 31/4% instalment promissory notes to The Columbia Gas System, Inc., parent.—V. 171, p. 1790.

#### United Gas Improvement Co.—Holders Seek Disposal of Units Not Needed-

Percival E. Jackson of New York has petitioned the SEC to require this company to distribute to its common stockholders all assets not needed for the operation of its integrated gas system. Mr. Jackson, holder of 2,500 shares of common stock, was joined in the petition by four holders of an additional 7,500 shares. The petition alleges that U.G.I. operates an integrated gas system in eastern Pennsylvania, which it has chosen to retain under provisions of the Public Utility Holding Company Act. In this system are: Allentown-Bethlehem Gas Co., Consumer Gas Co., Harrisburg Gas Co., Lancaster County Gas Co., Lebanon Valley Gas Co., Philadelphia Gas Works Co. The petition named three other companies which it contends are not necessary for the operation of this system and should be disposed of for the benefit of U.G.I.'s shareholders. These are: Luzerne County Gas & Electric Corp., Delaware Coach Co., which through subsidiaries operates buses in Wilmington, Del., and Chester, Pa., and Utilities Realty Co., which owns the Philadelphia office building occupied by U.G.I. In addition, the Jackson petition claims that U.G.I. holds \$20,000,000 of readily marketable securities in disassociated utility companies. The stockholders' petition would urge U.G.I.'s management to use its discretion in deciding how these "excess assets" should be distributed among holders of the outstanding 1,566,372 shares of common stock.—V. 171, p. 2614.

# United Natural Fuel Gas Co.—Merger Authorized—

The SEC on July 3 announced the issuance of an order authorizing the merger and consolidation of this company, Ridgeway Natural Gas Co., St. Mary's Natural Gas Co., Smethport Natural Gas Co., and Mercer County Gas Co., all of Oil City, Pa.

The surviving company will be known as United Natural Gas Co. National Fuel Gas Co., parent, will exchange its stock holdings in the several subsidiaries for new common stock of United. Prior thereto, Ridgeway, St. Mary's and Smethport will reacquire certain of their outstanding stock from National for cancellation, the proceeds of which will be used by National for general corporate purposes.

These companies operate in adjoining areas of Pennsylvania, and their merger will simplify the holding company system of which they are a part and effect economies by reducing operating expenses.

# United Profit-Sharing Corp.—Files With SEC-

A letter of notification was filed with the SEC on June 28 covering 1,400 shares of common stock (par 25 cents) to be offered at market (about 75 cents per share) through Tucker, Anthony & Co. on the New York Stock Exchange. The proceeds will go to a selling stock-holder.

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above, the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below we are able to give final and complete results of the week previous - the week ending July 1. For that week there was an increase of 0.7%, the aggregate of clearings for the whole country having amounted to \$15,238,978,341 against \$15,128,-685,116 in the same week in 1949. Outside of this city there was a gain of 10.7%, the bank clearings at this center having recorded a loss of 7.3%. We group the cities according to the Federal Reserve Districts in which they are located and from this it appears that in the New York District (including this city) the totals show a decline of 6.8% but in the Boston Reserve District the totals show an improvement of 11.8% and in the Philadelphia Reserve District of 17.0%. In the Cleveland Reserve District the totals are larger by 17.0%, in the Richmond Reserve District by 10.3% and in the Atlanta Reserve District by 3.7%. The Chicago Reserve District has to its credit a gain of 2.7%, the St. Louis Reserve District of 8.8% and the Minneapolis Reserve District of 13.8%. In the Kansas City Reserve District the totals record an increase of 8.3%, in the Dallas Reserve District of 25.3% and in the San Francisco Reserve District of 9.7%.

## to put these powerful forces to work in your company

Right now management has an unusual opportunity to gain employee-relations value from the high public interest these genii have created for U.S. Savings Bonds. During the Treasury Department's Independence Drive, May 15-July 4, every major advertising medium has been used to broaden the people's interest in Savings Bonds as a means of building financial independence. Now, more than ever, as a result of this all-out campaign, your employees will appreciate the convenience of being able to obtain Bonds "automatically" via the Payroll Savings Plan.

If your company doesn't yet have the Payroll Savings
